Planet Associates Releases Cloud/SaaS Version of Planet Infrastructure Relationship Management Software

New Cloud/SaaS browser based advanced infrastructure management capabilities simplify user access and eliminate on-premises hosting requirements

Park Ridge, NJ - January 20, 2019 - Planet Associates Inc., the leading provider of Infrastructure Relationship Management (IRM) software and services for Enterprise Networks, has just released the NexGen Cloud/SaaS version of Planet IRM which is totally browser based.

Planet's NexGen features include imbedded CAD, Global Console, Dash Boards, Inside and Outside Cable Plant, Data Center (DCIM), User Work Areas, and Wide Area Network (WAN)

"This new NexGen Planet IRM product offering eliminates the need for customer Client/Server on-premises deployments and is consistent with our objective to continually improve our product suite and user experience," said William Spencer, President and CEO of Planet Associates. "Our new NexGen capabilities are examples of responding to customer feedback and our continuing focus on new product research and development."

Planet IRM is designed to consolidate critical infrastructure information and streamline IT operations through a single, centralized, visual data repository, which improves operational efficiency and service levels, reduces network disruptions and downtime, and provides the cohesion necessary for accurate and thorough critical system analysis.

About Planet Associates Inc.

Planet Associates Inc., located in Park Ridge, N.J., develops, licenses and supports the Planet IRM suite of infrastructure relationship management software products. Planet IRM is uniquely capable of total enterprise network asset consolidation, incorporating Inside and Outside Cable Plant, Data Center, WAN, and User Work Area, and all related interconnectivity in its product suite.
